

Product Feature

PODIUM-HP RADIAL

Designed for the characteristics of high performance of tire either on wet surface or on dry surface.

Streamline typed tread pattern improves the drainage and reduces the rotation resistance resulting in the tire at the a high speed.

Smooth profile of shoulder part was designed for securing superior grip and exceptional stability at all lean angles of high speed.

Technical Information

SR	SIZE	SPEED RATING	LOAD INDEX	RECOM RIM	OVERALL DIAMETER	WIDTH	DOT	PLY RATING	FRONT REAR	TUBE TYPE	MAX LOAD	MAX PSI
